Your personal table
anywhere you go.

Elevate on-the-go dining

The Challenge

Whether you're at a baseball game, outdoor concert, or camping, the experience of eating on the go is often messy, inconvenient, and uncomfortable. Between the tight seating, lack of table space, and unpredictable crowds going in and out of the isles, enjoying your food without spilling it on you or on the ground is almost impossible.

Instead of being in the moment, enjoying the game or concert you're thinking about not dropping your nachos or how to open a condiment packet with one hand. It's a delicate dance often ending in exasperation or a mustard-stained shirt.

The GoTray Solution

Born from real-world frustration at baseball games, the GoTray is the first ever foldable, portable lap tray purpose-built specifically for live events and on-the-go dining.

Our patent-pending design provides the stable, clean, portable surface you need, wherever life takes you. From stadiums to outdoor concerts, the GoTray transforms any space into your personal dining area. Food is part of the fun—but it shouldn't get in the way of enjoying the event. You deserve a better way to eat on the go.
