

TWIST

POWER IN EVERY DIRECTION

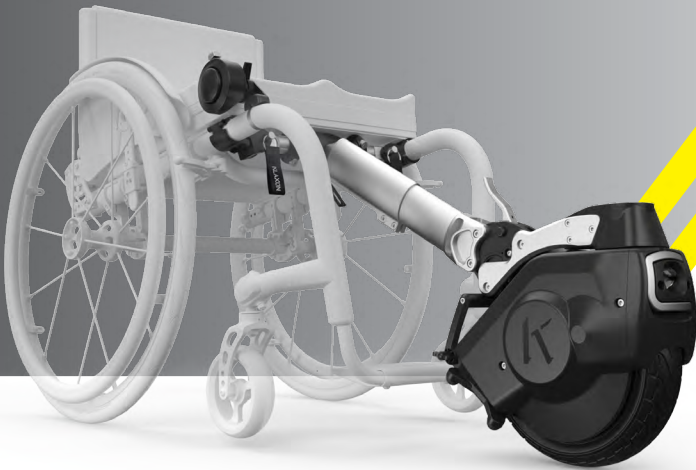

THREE / CONFIGURATIONS

REAR CONFIGURATION

- **High Maneuverability in Tight Spaces** – Ideal for navigating indoors and confined or crowded environments.
- **Compact Footprint** – Maintains the natural handling of your chair without compromising agility.

FRONT CONFIGURATION

- **Elevated Front Casters** – Improve ride smoothness by lifting front casters over small obstacles.
- **Obstacle Avoidance & Uneven Surface Management** – Handles curbs and rough terrain with ease.
- **Slope Speed Control** – Enhances safety by automatically regulating descent speed on inclines.

FRONT CONFIGURATION WITH **HANDLEBAR**

- **Open-Space Steering** – Offers precise directional control, making long-distance travel more comfortable.
- **Mechanical Braking** – Provides added stopping power for increased safety, especially on slopes or higher-speed descents.

ENDLESS / POSSIBILITIES

PRECISION IN TIGHT SPACES

The rear-mounted Klaxon Twist enhances maneuverability in confined environments like offices, restaurants, and public transportation. Its compact design maintains the feel of a manual wheelchair while seamlessly integrating power assist for effortless navigation.

INTUITIVE STEERING AND BRAKING

Designed for outdoor performance, the front-mounted Twist transforms how users navigate challenging terrain, ensuring a smooth, stable ride over rough surfaces. Elevated front casters improve obstacle clearance, while speed control on slopes enhances safety and control.

CONFIDENCE ON ANY SURFACE

For greater control and responsiveness, the front-mounted Twist with handlebar offers intuitive steering and mechanical braking. This setup provides precise directional input, making long-distance travel more comfortable and effortless.

SEAMLESS CONTROL. PERSONALIZED PERFORMANCE.

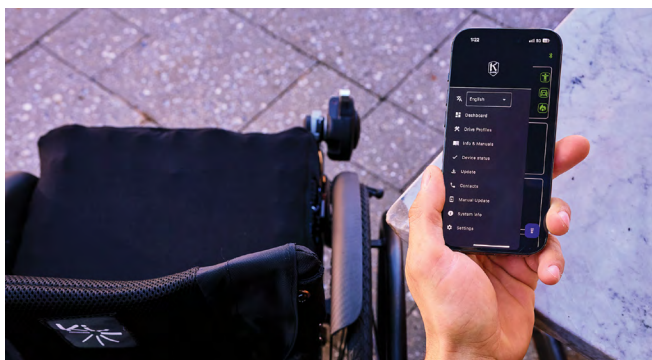

Adjust speed and braking parameters, monitor battery usage, and view real-time performance statistics—all from your smartphone, using the Klaxon app.

With the wireless controller, you can fine-tune your ride: initiate movement, modulate speed, and manage braking. It's performance tailored to your preferences—at the touch of a button.

SPECIFICATIONS

Mounting Configurations:	Dual Rear and Front	
Swivel Wheel:	360°	
Handlebar Ready:	Yes	
Battery:	Removable 36v / 4Ah Li-ion	
Range:	20 Km	12.4 mi
Battery Weight:	1.3 kg	2.9 lb.
Maximum Rated Slope:	6°	

Founded in 1973, Etac is a world-leading developer and provider of ergonomic assistive devices and patient handling equipment. Our ambition is to provide solutions that optimize quality of life for the individual, family members and caregivers.
